4	Change of Advanced / Smart Data Service Agent	39

SCHEDULE XX

MHHS Migration

Version: 0.7

Effective Date: MHHS Go Live

Domestic Suppliers	Mandatory for electricity
Non-Domestic Suppliers	Mandatory for electricity
Gas Transporters	N/A
Distribution Network Operators	Mandatory
DCC	N/A
Metering Equipment Managers	Mandatory for electricity
Non-Party REC Service Users	N/A

Change History

Version Number	Implementation Date	Reason for Change
MHHS v0.1	N/A	MHHS required changes: Draft for industry review
MHHS v0.2	N/A	MHHS required changes: Updated following industry consultation
MHHS v0.3	N/A	Version Uplifted following CCAG Approval
MHHS v0.4	N/A	MHHS version for mop up consultation including approved CP R0064
MHHS v0.5	N/A	MHHS required changes: Updated to reflect Mop Up consultation comments. To be issued to CDWG for assurance check.
MHHS v0.6	N/A	MHHS required changes: Updated to reflect Mop Up assurance comments. To be issued to CDWG for recommendation to CCAG.
MHHS v0.7	N/A	MHHS required changes: Updated to reflect IR8.1 for M6 consultation

MHHS v0.8	N/A	MHHS required changes: Updated to address M6 consultation comments.
MHHS v0.9	N/A	MHHS required changes: Updated to address M6 assurance review comment in section 3.
MHHS 1.0	N/A	M6 version approved by CCAG. Updated version number for SCR consultation with no further changes made from previous version.
<u>MHHS 1.1</u>	<u>N/A</u>	<u>Updated for R0209 to capture housekeeping identified by Code Manager</u>
<u>MHHS v1.2</u>	<u>N/A</u>	<u>Updated following R0209 consultation – housekeeping.</u>

1 Introduction

- 1.1. This REC Schedule sets out the processes to be followed to enact MHHS Migration or MHHS Reverse Migration. MHHS Migration and MHHS Reverse Migration involve a number of Market Participants with associated requirements governed within both the BSC and this Code. References to the Supplier Meter Registration Service and Advanced / Smart Data Service Agents are included for information only. Any requirements on the organisations which provide these services are defined and governed within the BSC.
- 1.2. Paragraphs 2 and 3 define separate processes for:
- MHHS Migration enacted at the same time as a Switch;
 - MHHS Migration enacted as a change of Supplier Agent with no concurrent Switch; and
 - MHHS Reverse Migration as a result of a Switch, where a Metering Point which had previously been MHHS Migrated is Registered by a Gaining Supplier that is not MHHS Qualified.
- 1.3. When enacting an MHHS Migration, the Electricity Supplier is expected to initiate an Advanced / Smart Data Service Agent and Meter Operator Agent (MOA) Appointment at the same time. A Metering Point will be deemed to be MHHS Migrated where a successful Supplier Agent Appointment takes effect with either or both the Meter Operator Agent and/or Advanced / Smart Data Service Agent being successfully Appointed using a DIP Market Message. As long as at least one appointment is successful, then the Metering Point will have been MHHS Migrated.
- 1.4. For a Metering Point that has been MHHS Migrated (and which has not been MHHS Reverse Migrated), the standard processes for Appointing Meter Operator Agents shall be followed, as defined in Part D of the Metering Operations Schedule. For a Metering Point that has not been MHHS Migrated, the standard processes for Appointing Meter Operator Agents shall be followed, as defined in Part E of the ~~MHHS Transition Schedule~~ Metering Operations Schedule.
- 1.5. Associated Import / Export Metering Points are not required to undergo MHHS Migration at the same time. Where the same electricity Metering Asset is being utilised for the measurement of either:
- Import by Metering Points registered in the legacy settlement arrangements and Export by Metering Points registered in the MHHS settlement arrangements; or,
 - Import by Metering Points registered in the MHHS settlement arrangements and Export by Metering Points registered in the legacy settlement arrangements,

the same Meter Operator Agent shall be Appointed to all of the Import and Export

Commented [HT2]: Post R0209 consultation - correction to remove reference to an MHHS Transition Schedule which is no longer the drafting approach. The Metering Operations Schedule holds the relevant transition text (on agent appointments).

Metering Points. This Meter Operator Agent must be Qualified for operations in relation to both arrangements.

- 1.6. MHHS Migration of Complex Sites should be managed carefully, with co-ordination between all relevant Electricity Suppliers and their chosen Supplier Agents.
- 1.7. The sending of DIP Market Messages detailed in this REC Schedule is mandatory. Where DIP Market Messages are used to send information to a Distribution Network Operator from the relevant Supplier Meter Registration Agent, the Distribution Network Operator shall subscribe to receive the relevant DIP Market Message or, access the information via internal communication channels.

2 MHHS Migration

- 2.1. Electricity Suppliers can choose when to migrate individual Metering Points in line with the agreed MHHS Migration Plan. There is no requirement for MHHS Qualified Electricity Suppliers to enact MHHS Migration where they gain a Metering Point as part of a Switch.
- 2.2. To facilitate the process, the Supplier Meter Registration Agent will, on receipt of information from the Central Switching Service indicating that a Switch has been initiated for a Metering Point currently settling under legacy arrangements, send site information to the Gaining Supplier via both legacy Market Messages and DIP Market Messages in accordance with BSCP708.
- 2.3. Where an Electricity Supplier chooses not to enact MHHS Migration as part of a Switch, it shall follow legacy arrangements to Appoint Supplier Agents in accordance with the MHHS Transition Schedule and the BSC. Where an Electricity Supplier chooses to enact MHHS Migration, the transmission of an IF-036 Market Message (SMRS Notification of Supplier Agent Appointment and Supporting Info) relating to either or both the Meter Operator Agent and/or the Advanced / Smart Data Service Agent will indicate that MHHS Migration has occurred and the Metering Point is now operating under MHHS arrangements.
- 2.4. Where a Related Metering Point relationship exists, as part of an MHHS Migration the Meter Operator Agent and Advanced / Smart Data Service Agent Appointments, shall only be progressed through migration in relation to the Primary Related Metering Point. The MHHS Migration status of the Secondary Related Metering Point(s) shall be the same as the Primary Related Metering Point.
- 2.5. As Associated Import / Export Metering Points will be MHHS Migrated independently, the standard Supplier Meter Registration Service validation will be disappplied to enable the Electricity Supplier for the Export Metering Point to initiate a Meter Operator Agent Appointment (but subject to Paragraph 1.6).
- 2.6. Once the Supplier Agent Appointments have been initiated, MHHS Migration will complete unless one or more of the following events occur:

- a) a notification of a Pending Registration is received by the Electricity Retail Data Service from the Central Switching Service for the Metering Point. In this case, the Appointment that had been initiated by the existing Electricity Supplier as part of the migration shall be treated as lapsed;
- b) neither the Meter Operator Agent nor the Data Service Agent accept the Appointment request and there have been no further requests for a Supplier Agent Appointment for that date triggered by the Electricity Supplier; or
- c) a notification of a Cancelled Registration is received by the Electricity Retail Data Service from the Central Switching Service for the Metering Point. In this case, the Appointment that had been initiated by the Gaining Supplier as part of a Switch shall be treated as lapsed;

MHHS Migration with Switch

2.7. The process below shall be followed where MHHS Migration is enacted as part of a Switch. This process is applicable to all types of Metering Asset, unless otherwise stated.

Ref	When	Action	From	To	Information Required	Method
2.7.1	<p>Within 60 minutes of receipt of a Notification to New Supplier of Site Information by the Gaining Supplier (MHHS IF-002 Notification to New Supplier of Site Information) indicating that a Switch Request is Pending.</p> <p>As described in BSCP708, prior to this step, where the Metering Point is currently a Non-MHHS Metering Point and the Gaining Supplier is MHHS Qualified, the SMRS will issue both the MHHS IF 002 and also the D0217 (Confirmation of the Registration of a Meter Point) and D0260 (Notification from MPAS of Old Supplier Registration Details) Market Messages to the Gaining</p>	<p>Send MOA Appointment request.</p> <p>The Gaining Supplier shall ensure the chosen MOA is acceptable based on the Premises, Market Segment and meter type.</p>	Gaining Supplier	SMRS	MHHS IF-031 Supplier Agent Appointment Request	DIP Interface

	Supplier. If the Gaining Supplier chooses not to migrate the Metering Point then it will Appoint the MOA in accordance with the process in Part E of the MHHS Transition Schedule Metering Operations Schedule .					
2.7.2	Following receipt of the notification referenced in 2.7.1 and in accordance with BSCP708	Validate MOA Appointment request. If Appointment is accepted, proceed to 2.7.5, otherwise proceed to 2.7.3.	SMRS		Internal Process	N/A
2.7.3	Following 2.7.2 where the Appointment is not accepted.	Send notification that the proposed MOA Appointment has been rejected by the SMRS.	SMRS	Gaining Supplier	MHHS IF-032 SMRS Supplier Agent Appointment Request Response - rejection	DIP Interface
2.7.4	Within 60 minutes of receipt of the notification referenced in 2.7.3. Electricity Suppliers are only required to issue the new Appointment request within 60 minutes for 90% of Appointment rejections, with the remaining being processed by the end of the following Working Day.	Manage rejection of proposed MOA Appointment. Where the rejection is of a type the Gaining Supplier can resolve without involving other industry parties, send a corrected MHHS IF 031. If the Gaining Supplier needs to involve other industry parties to	Gaining Supplier		Internal Process	N/A

					D0150 Traditional Meter Technical Details	
2.8.27	Following receipt of the notification in 2.8.24 and 2.8.26.	Validate MTDs, including reconciliation with data received from the SMRS. Where discrepancies are identified, the Electricity Supplier shall resolve in discussion with the relevant Market Participants.	Electricity Supplier		Internal Process	N/A
2.8.28	On appointment of Gaining MOA and between <u>5WD</u> and <u>10WD</u> of 2.8.24.	Send Consumer details. The D0225 should only be sent where required in accordance with the Transfer of Consumer Data Schedule.	Electricity Supplier	Gaining MOA	D0302 Notification of Customer Details D0225 Priority Services Details	Electronic or other method, as agreed
2.8.29	Within <u>3WD</u> of 2.8.19 or 2.8.24.	Send notification of Electricity Supplier and MOA appointment.	Gaining MOA	MAP	D0303 Notification of Meter Operator, Supplier and Metering	Electronic or other method, as agreed

					Assets installed/removed by the MOP to the MAP.	
2.8.30	Within 5WD of 2.8.13.	Send notification of MOA de-appointment.	Losing MOA	MAP	D0303 Notification of Meter Operator, Supplier and Metering Assets installed/removed by the MOP to the MAP.	Electronic or other method, as agreed

3 MHHS Reverse Migration

- 3.1. MHHS Reverse Migration is initiated by the Supplier Meter Registration Service where a Metering Point is being settled under MHHS arrangements and a Switch is initiated by a Gaining Supplier which is not MHHS Qualified. Where the Gaining Supplier is MHHS Qualified, it cannot choose to enact MHHS Reverse Migration.
- 3.2. During the MHHS Migration Period, the Gaining Supplier shall check the MHHS status of the Metering Point prior to initiating a Switch, using the Electricity Enquiry Service, to determine whether they are in a position to Register the Metering Point.
- 3.3. To initiate the process, the Supplier Meter Registration Agent shall, on receipt of information indicating that a Switch has been initiated by an Electricity Supplier who is not MHHS Qualified for a Metering Point currently settling under MHHS arrangements, send required information to the Losing Supplier via legacy Market Messages.

- 3.4. Where a MHHS Reverse Migration occurs, the transmission on an IF-003 Market Message (Notification of Reverse Migration and De-appointment) from the Supplier Meter Registration Service to the Losing Meter Operator Agent (and Advanced / Smart Data Service Agent) will indicate that MHHS Reverse Migration has occurred and the Metering Point is now operating under legacy arrangements. For MHHS Reverse Migration, the IF003 (Notification of Reverse Migration and De-appointment) will be issued instead of the IF037 Notification of Supplier Agent Appointment.
- 3.5. Where a Related Metering Point relationship exists, the Primary Related Metering Point and Secondary Related Metering Point will undergo a Switch simultaneously i.e. where a Switch is initiated in relation to the Primary Related Metering Point, the Secondary Related Metering Point shall be automatically Switched by the Central Switching Service. However, MHHS Reverse Migration for each Metering Point shall be progressed independently by the Electricity Supplier i.e. the Gaining Supplier shall appoint Supplier Agents for each Metering Point separately.
- 3.6. Where an Import / Export Metering Point association exists and one or both Metering Points undergo MHHS Reverse Migration, these shall be progressed independently by the relevant Electricity Suppliers.
- 3.7. Once initiated, a MHHS Reverse Migration will complete unless a notification of a Cancelled Registration is received for the Metering Point by the Electricity Retail Data Service from the Central Switching Service.
- 3.8. The process below shall be followed where MHHS Reverse Migration is enacted as part of a Switch. The REC documents the process covering Appointment of the legacy MOA. During Reverse Migration a NHH / HH Data Collector and Data Aggregator will also be Appointed. Details of this process are included in BSCP708. This process is applicable to all types of Metering Asset, unless otherwise stated.

Ref	When	Action	From	To	Information Required	Method
3.8.1	Where MHHS Reverse Migration is initiated as described in Paragraph 3.1.	Send MOA Appointment request. The Gaining Supplier shall populate the Service Reference (J0274) and Service Level Reference (J0275) with REVM to indicate a MHHS Reverse Migration is being initiated.	Gaining Supplier	Gaining MOA	D0155 Notification of Meter Operator or Data Collector Appointment and Terms	Electronic or other method, as agreed
3.8.2	Within 5WD of 3.8.1, if Appointment is rejected	Send notification of rejection of Appointment including the reason why the request has been rejected. Restart process from 3.8.1.	Gaining MOA	Gaining Supplier	D0261 Rejection of Agent Appointment	Electronic or other method, as agreed
3.8.3	Within 5WD of 3.8.1, if Appointment is accepted	Send notification of acceptance of Appointment.	Gaining MOA	Gaining Supplier	D0011 Agreement of Contractual Terms	Electronic or other method, as agreed
3.8.4	As soon as reasonably practicable following receipt of the notification referenced in 3.8.3	Provide Supplier Agent details and settlement details required in accordance with BSCP708.	Gaining Supplier	SMRS	D0205 Update Registration Details	Electronic or other method, as agreed
3.8.5	Following receipt of the notification referenced in 3.8.4.	Perform validation checks. If data is accepted, the D0172 Confirmation of Changes will be issued in accordance with BSCP708 and Supplier Agent Appointment	SMRS		Internal Process	N/A

		update will be issued to the Central Switching Service in accordance with the RMP Lifecycle Schedule.				
3.8.6	Within the timescales set out in BSCP708, where the Appointment is taking effect.	<p>Send MOA de-appointment using DIP Interfaces.</p> <p>This notification will be issued even if the D0205 has not been received in accordance with 3.8.4.</p>	SMRS	Losing MOA Losing Supplier DNO EES	MHHS IF-003 Notification of Reverse Migration and De-appointment	DIP Interface
3.8.7	Within 2WD of receipt of the notification in 3.8.6	<p>Send MTDs.</p> <p>Where the MTDs change before the Gaining MOA effective from date, the Losing MOA shall send revised MTDs.</p> <p>For Smart Metering Assets, the Losing MOA shall create the skeleton D0150.</p> <p>Where the IF003 does not contain details of the Gaining MOA, the Losing MOA shall utilise other means to identify the Gaining MOA e.g. raising a query with the Losing Supplier or viewing the data via the EES.</p>	Losing MOA	Gaining MOA	Advanced Metering Assets D0268 Advanced Meter Technical Details D0383 Notification of Commissioning Information D0384 Notification of Commissioning Status	Electronic or other method, as agreed

					<p>or</p> <p>Traditional Metering Assets</p> <p>D0149 Notification of Mapping Details.</p> <p>D0150 Traditional Meter Technical Details</p> <p>or</p> <p>Smart Metering Assets</p> <p>Skeleton D0150 Traditional Meter Technical Details</p>	
3.8.8	In parallel with 3.8.7, for Smart Metering Assets.	Send skeleton D0150 Traditional MTDs	Losing MOA	<p>Gaining Supplier</p> <p>Gaining</p>	<p>Skeleton D0150 Traditional Meter Technical Details</p>	Electronic or other method, as

				MOA		agreed
3.8.9	Following receipt of the notification referenced in 3.8.8, for Smart Metering Assets.	Send tariff configuration data.	Gaining Supplier	Gaining MOA	D0367 Smart Meter Configuration Details	Electronic or other method, as agreed
3.8.10	Following receipt of notifications referenced in 3.8.7 and 3.8.9, for Smart Metering Assets.	Create a valid D0149 / D0150 pair for onward transmission.	Gaining MOA		Internal Process	N/A
3.8.11	Following receipt of notification referenced in 3.8.7, for Advanced Metering Assets where the Electricity Supplier has determined that the Metering Point should be NHH settled under legacy arrangements.	Transform the MTDs from a D0268 format to a D0149 / D0150 and D0313 format for onward transmission.	Gaining MOA		Internal process	N/A
3.8.12	As soon as reasonably practicable, following receipt of the notification in 3.8.7.	Send MTDs. Where MTDs have not been received by the Gaining MOA within the timescales set out in 3.8.7, the Gaining MOA may send a request to the Losing MOA using the D0170 (Request for Metering System Related Details).	Gaining MOA	Gaining Supplier HHDC/ NHHDC DNO	HH Metering Assets D0268 Advanced Meter Technical Details D0383 Notification of	Electronic or other method, as agreed

Commented [HT5]: Housekeeping identified in R0209 - Being sent to Gaining MOA is already covered in 3.8.7.

					Commissioning Information D0384 Notification of Commissioning Status or NHH Metering Assets D0149 Notification of Mapping Details. D0150 Traditional Meter Technical Details D0313 Auxiliary Meter Technical Details	
3.8.13	On appointment of Gaining MOA and within 1WD of 3.8.3.	Send Consumer details. The D0225 should only be sent where required	Gaining	Gaining	D0302 Notification of	Electronic or other method,

		in accordance with the Transfer of Consumer Data Schedule.	<u>Supplier</u>	<u>MOA</u>	<u>Customer Details</u> <u>D0225 Priority Services Details</u>	as agreed
3.8.14	On appointment of Gaining MOA and within 1WD of 3.8.3.	Send MOA appointment details. The D0148 should be populated in the same way as a new connection i.e. with the Gaining MOA (and Gaining Data Aggregator) details. The Gaining MOA would also receive a D0148 with details of the Gaining NHHDC / HHDC as detailed in BSCP708.	<u>Gaining Supplier</u>	<u>NHHDC / HHDC</u>	D0148 Notification of Change to Other Parties.	Electronic or other method, as agreed
3.8.15	Within <u>1WD</u> of 3.8.12.	Send notification of <u>Electricity Supplier</u> and <u>MOA</u> appointment.	<u>Gaining MOA</u>	MAP	<u>D0303 Notification of Meter Operator, Supplier and Metering Assets installed/removed by the MOP to the MAP.</u>	Electronic or other method, as agreed
3.8.16	Within 5WD of 3.8.6.	Send notification of <u>MOA</u> de-appointment.	<u>Losing MOA</u>	MAP	<u>D0303 Notification of Meter Operator, Supplier and Metering Assets installed/removed by the MOP to the MAP.</u>	Electronic or other method, as agreed

4 Change of Advanced / Smart [Data Service Agent](#)

4.1. The process for Advanced / Smart Data Service Agent Appointment as part of MHHS Migration is set out within BSCP708. Where an Advanced / Smart Data Service Agent Appointment occurs as part of MHHS Migration, the prospective Meter Operator Agent will receive details of the new Advanced / Smart Data Service Agent from the Supplier Meter Registration Service and will provide Meter Technical Details to the new Advanced / Smart Data Service Agent in accordance with the process below:

Ref	When	Action	From	To	Information Required	Method
4.1.1	Where Advanced / Smart Data Service Agent Appointment is accepted in accordance with BSCP708.	Publish notification of proposed Advanced / Smart Data Service Agent Appointment.	SMRS	MOA	MHHS IF-035 SMRS Appointment Status Notification	DIP Interface
4.1.2	Within 60 minutes of receipt of the notification in 4.1.1, for Traditional Metering Assets and Advanced Metering Assets only.	Send Meter Technical Details. For Advanced Metering Assets, the D0268 is to be sent in all circumstances, even if no Metering Asset is present on site , unless the MOA does not have sufficient information to fully populate group 01A. For Traditional Metering Assets, the D0150 is to be sent in all circumstances. The D0149 would not be issued where there is no Metering	MOA	ADS / SDS	Advanced Metering Assets <ul style="list-style-type: none"> D0268 Half Hourly Meter Technical Details or Traditional Metering Assets <ul style="list-style-type: none"> D0149 Notification of Mapping Details. 	Electronic or other method, as agreed

		Asset.			<ul style="list-style-type: none"> • D0150 Traditional Meter Technical Details 	
4.1.3	Where Advanced / Smart Data Service Agent Appointment is confirmed in accordance with BSCP708.	Issue notification of confirmed Advanced / Smart Data Service Agent Appointment.	SMRS	MOA	MHHS IF-036 SMRS Notification of Supplier Agent Appointment & Supporting Info	DIP Interface
