

Message Flow Details

MM00236 - Notification of Customer Details

Market Message Information

Market Message Reference	MM00236
MM Description	The Supplier will inform the participants of customer contact address and mailing address details.
Local Catalogue Reference	D0302
Version	002
Notes	This flow must be sent whenever there is a new or changed value for any data item contained within Groups 69C, 15J, 16J, 17J. The address should only be populated where there is a new or changed mailing address. Where an AMVLP (Asset Metering Virtual Lead Party) is involved, the MPAN Core must contain an AMSID (Asset Metering System Identifier) and not an MPAN. Though each address line in this flow is optional, when an address is to be updated using this flow the entire address must be included in the flow. An update to an individual line within

	an address will require the entire address to be sent.
