Minutes and Actions

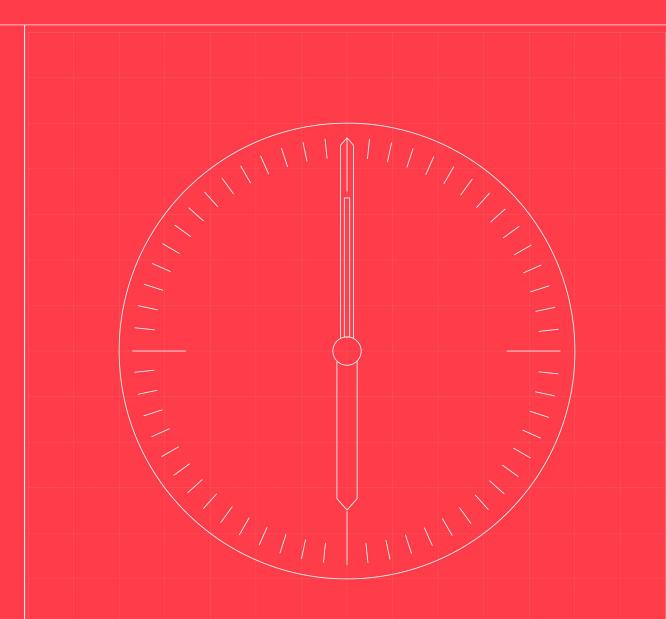

DECISION: Approve minutes of previous meeting and review outstanding actions

Chair & Secretariat

10 mins

2

Minutes and Actions

- Approval of Headline Report from CCAG meeting held <u>24 April 2024</u>
- Review of outstanding actions:

Ref	Date Raised	Action	Owner	Due Date	Update
CCAG28-02	27/03/24	AM to respond to DCP411 consultation noting Programme timescales for June implementation of that change, and related MHHS M6 August delivery timescales.	Programme (Andrew Margan)	22/05/24	RECOMMEND CLOSED: See Section Action CCAG29-01
CCAG28-03	27/03/24	NGESO to provide an update on drafting for definitions associated with CUSC modification CMP430 and CMP431.	ESO (Neil Dewar)	22/05/24	ONGOING: NGESO still looking at developing legal text
CCAG29-01	24/04/24	Work with JL to engage the DCUSA regarding delivery of DCP433 change.	Programme (Andrew Margan)	22/05/24	RECOMMEND CLOSED: JL has informed DCUSA of the importance of getting DCP433 implementation prior to August M6 MHHS Text decision
CCAG29-02	24/04/24	Create a meeting between Codes (BSC & REC) with Design.	Programme (Andrew Margan)	22/05/24	RECOMMEND CLOSED: Meeting has taken place, with future meetings in diaries to manage and track Design changes
CCAG29-03	24/04/24	Update success criteria following CCAG discussion.	Programme (Andrew Margan)	22/05/24	RECOMMEND CLOSED: Update provided in Section 6
CCAG29-04	24/04/24	Programme to cancel May CDWG2.	Programme (PMO)	25/04/24	RECOMMEND CLOSED: May CDWG2 has been cancelled.

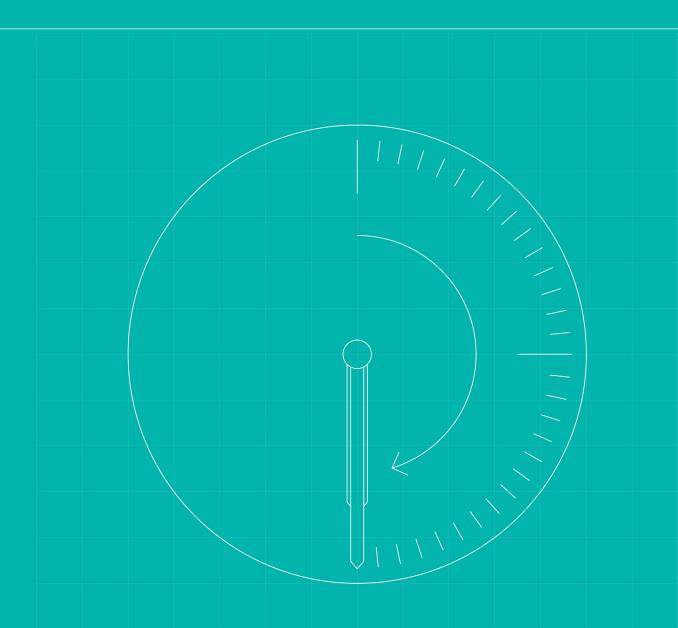

Programme Updates

INFORMATION: Updates from MHHS Programme governance groups and the wider Programme

Programme (PMO)

5 mins

Level 3 Advisory Groups Updates

Industry-led, Elexon facilitated

Governance group updates			Wider Programme Updates
Programme Steering Group (PSG)	Design Advisory Group (DAG)	Cross Code Advisory Group (CCAG)	Participant Checklist: 1.REMINDER: Systems Integration Testing (SIT) Migration Participant Readiness
 PSG 01 May 2024 CR047 & CR048: SRO ratified CRs to add/amend Qualification milestones within the Programme Plan following approval by the MHHS Change Board. CR044 & CR045: PSG received escalations from DAG over challenges with implementation and determined the changes be approved in principle with feasibility of implementing pre-M10 to be determined by Autumn 2024, or transitioned to code governance processes for implementation post-M10. DBT2 (Consequential Change) Risks Assessment: IPA recommended assurance is undertaken for participant consequential change related to MHHS that is outside the scope of the Programme (DBT2). Impact assessments would be requested from participants. IPA took an action to consider the governance of any DBT2 assurance. 	 DAG 08 May 2024 CR044 & CR045: DAG received updates on the outcome discussions at the PSG, following escalation from the DAG owing to challenges expressed by participants over implementation pre-M10. CR050: DAG were advised CR050 (<i>Changes to the MHHS Change Control Approach and From</i>) would now be issued for full Impact Assessment following Ofgem's decision that the CR should be subject to their approval. Future DAG meetings: DAG agreed that, owing to the limited content expected for the next meeting, updates should be provided by correspondence and the meeting stood down (subject to there being no substantive items to discuss). DAG papers available here. 	 CCAG 24 April 2024 Horizon Scanning Log: DCUSA provided updates on DCP428. REC provided updates on R0062, R0093, R0098, R0108, R0121 & R0144. No new updates from BSC. CCAG Reporting & Risks: CCAG is on track for M6 delivery in August 2024. M6 success criteria will be amended and brought back to May's CCAG. M7/M8 Planning: The approach has been agreed for M7/M8 planning, and activities are ongoing. Further updates to be brought to May CCAG. Mop-up 2 Consultation Update: Code Drafting Working Group (CDWG): Presented mop-up 2 consultation update, and consistency check approach. CCAG papers available <u>here.</u> 	 Report – the deadline is today, Wednesday 15 May 2024 2.REMINDER: Non-Functional and Operational Updates to the Placing Reliance Policy – the deadline is Friday 17 May 2024 3.REMINDER: Qualification Assessment Document (QAD) Guidance Document Informal Consultation – the deadline is Tuesday 21 May 2024 4.NEW! Change Request CR050 issued for Impact Assessment - the deadline is Wednesday 29 May 2024 5.Design Interim Release 7.3 Artefacts are live 6.NEW! SIT Settlement High Level Testing and Data Approach Guidance You can view the Participant Checklist on the respective Planning pages of the <u>Collaboration Base</u> and the <u>MHHS website</u>. In the Participant Checklist you can view upcoming consultations and key deliverables, as well as the latest status of Change Requests in the Master Change Request Dashboard tab. We've created the Interim Release and Swagger version alignment document for SIT participants. You can view this document on the respective SIT pages of the <u>Collaboration Base</u> and <u>MHHS website</u>.

SITAG 17 April 2024 SIT Migration Test Scenarios (TS) & Test Cases (TC): SRO approved the Themes 2 (Reverse Migration) & 3 (Import/Export MPANs & Exception Handling) TSs & TCs, excluding SIT-M-RM-COS- DfltVal v0.1 and ISD updates testing. Environments Approach & Plan: SRO approve	QAG 18 April 2024 Functional Non-SIT LDSO Test Scenarios and Test Cases: SRO approved the Functional Non- SIT LDSO Test Scenarios and Test Cases Focused Working Group for QT: Chair approved the creation of two new qualification subgroups, the Non-SIT LDSO and Non SIT Supplier & Agent	MCAG 08 May 2024 Migration Control Centre Framework: The Chair, acting with delegated authority of the SRO, approved the MCC Framework Consultation 1 outputs Programme Milestones: The Chair, acting with delegated authority of the SRO, approved the	Wednesday 22 May 2024: Non-Functional Testing Working Group (NFTWG Thursday 23 May 2024: Qualification Advisory Group (QAG) Thursday 23 May 2024: Migration Framework Development Workshop Qualification Assessment Document (QAD) Walkthrough Webinar: 29 May 2024: Please visit the Qualification Assessment Document page of the MHHS website to view the QAD that was recently issued for informal consultation. Please register for the webinar by completing this form by 17:00 on Tuesday 28 May 2024.
v2.13 of plan, incorporating latest non-SIT LDSO requirements. SIT Functional Updates: SIT F readiness work-off item substantively complete. Steady progress on SIT F execution, but Programme requests increase in throughput.	Qualification Testing subgroups Environments Approach and Plan : The Programme advised there would be further iterations of the document in future to incorporate Supplier & Agent QT and the environments sandbox.	milestone changes T3-MI-0023 and T3-MI-0033. Programme Risks: Risk R677 will be continually monitored in the risk section of the MCAG meetings, until it goes away or risk level reduces. MCAG papers available <u>here</u> .	Code Bodies Update: Elexon is seeking P471 & P472 Workgroup members: The Balancing & Settlement Code Company (BSCCo) is urgently looking for Workgroup members for the following BSC Modifications, which are being run together for efficiency: • P471: Amendment to BSC Section E to allow more flexibility in procurement of BSC Agents
SIT Delivery Plans: Overview of plans and deliverable dates for future SIT stages. SITAG papers available <u>here</u> .	QAG papers available <u>here</u>		P472: Amendment to provisions for Parties to bring claims against BSC Agents in BSC Section E
	*SITAG, MCAG, QAG replaced the Testing and I	L	Electralink DTS changes: To support the MHHS Programme's SIT phase, there was an extraordinary release of the Data Transfer Catalogue (DTC) v14.2 on the Data Transfer Network (DTN) at 22:00 on Monday 13 May 2024.

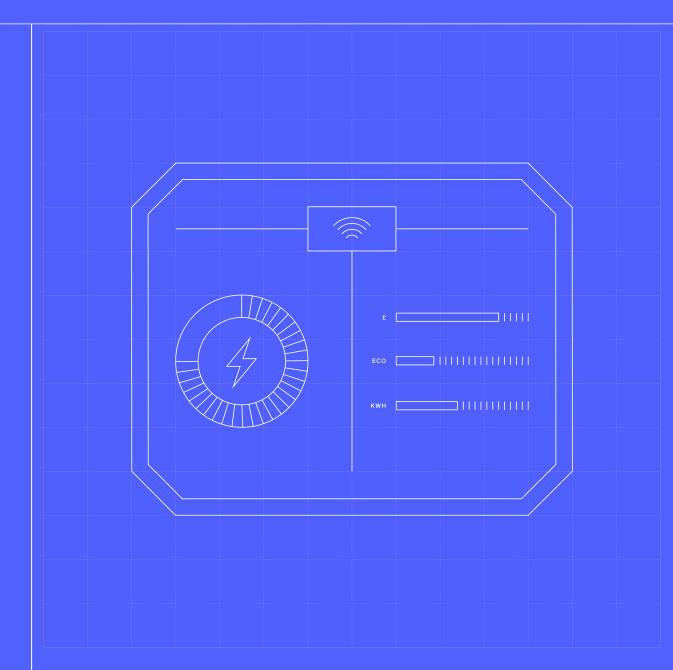

Horizon Scanning Log

DISCUSSION: Updates from all Code Bodies and the Programme on changes which may impact MHHS Programme

Programme & Code Bodies

25 *mins*

Horizon Scanning REC Change Updates

Change Title R0167 - Change Process Improvements following Code Manager review							
Change Summary: This change looks to update REC Schedule 5 – Change Management to enable process enhancements to be made to support the Code Manager's Change Process Improvements process Update 15/05 – New CP. Delivery of MHHS Code drafting relies on the REC change process in proposals under this change will not impact timings submitted for M6/M7/M8 delivery process						ents project. e process. The

Horizon Scanning REC Change Updates

NH()

Change Title		R0148 - In	troduction of classific	ation-based acc	ess model into th	e REC in suppor	t of Open Data
Change Summary:This change proposal is seeking to improve, extend and simplify access to enquiry services' data securely and efficiently. RECCo's Open Data project looks at REC-controlled data sources and crea a metadata catalogue based on a data classification model. RECCo are proposing that the output of this work is utilised to extend and improve access to Enquiry Services' data. This will be achieved through broader and more tailored access to the Enquiry Services data which is available.Update 15/05 – The Initial Assessment Report and Change Proposal Plan have been publish for a REC Change Panel decision on the plan on 21/05. No direct impact to MHHS drafting is expected. Category 3 data access impacts will be monitored as the change progresses.						ces and creating the output of achieved le. en published drafting is

CDWG Recommendation

Mop-up Code Artefacts for BSC. REC and DCUSA have been updated, refined and the code activity is complete

The Code Artefacts have been translated from the current MHHS Design and reviewed by Programme Participants and are ready to be approved at CCAG by the SRO, noting Artefacts may need to be subsequently updated to reflect new CRs and DINs

The MHHS Programme requests that CDWG recommends the Mop-up Code Artefacts are sent to CCAG for their consideration

The recommendation is –

Based on the current MHHS Design, the Mop-up Code Artefacts have been translated accurately (subject to CRs and DINs) and are ready to be CCAG approved, published and where relevant updated to reflect any later Design or approved CR changes*

*Note the Programme governance can make changes to Code Artefacts up until M6. We are considering how changes after M6 can be made e.g. Ofgem SCR powers

M6 Reporting, CCAG Risks and Milestones

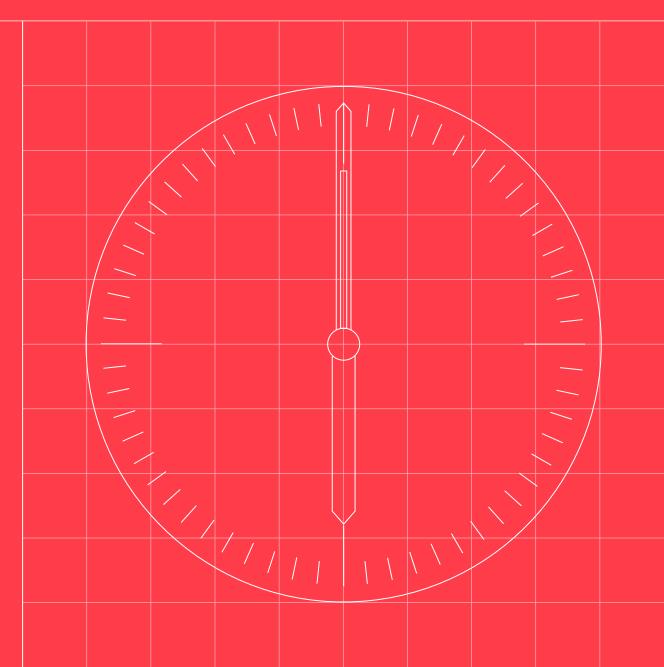

INFORMATION / DECISION:

M6 Programme status, risks and milestone updates

Programme (Andrew Margan)

15 mins

Overall Status • The Code Drafting Workstream is on track for M6 delivery in August 2024 and lower-level tier 3 milestones are all on track. M7 delivery date is at risk. M8 is on track as starting Code Body activities is not dependent on M7 decision. May Summary · Progress Mop-up 2 and consequential code change code artefacts to CDWG for recommendation and CCAG/SRO approval **Progress Consistency Check activities** Send Participant Cost PPIR (24 May) June Deliverables • Continue to progress Consistency Check activities with a 24 June consultation · Support Ofgem initial Legal Review of Obligations Progress M7 delivery activities • • Support M8 Implementation preparation activities

Τ Target Score

M6 - Success Criteria

Code Baseline Success Criteria:

All Design requirements translated into Code
Code changes incorporate all approved CRs and DINs
Code meets the plain English test and no obvious ambiguity
Due Process followed
Approved by SRO following CCAG recommendation

Key Dependencies:
Design and inflight DIN and CRs are complete/released
Code Bodies correctly draft the Code in time for M6 baseline
Due process and governance followed

Key Artefacts:BSC/REC documents and subsidiary documents and DCUSA text

*Updated following April CCAG recommendations

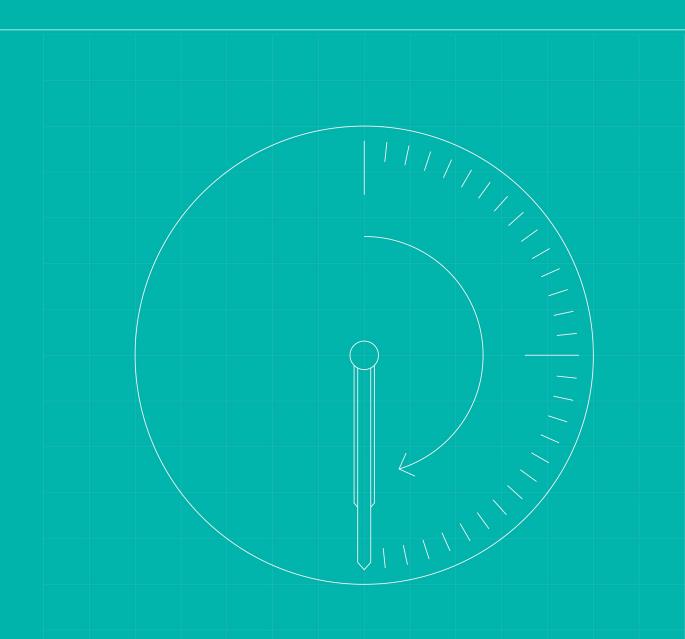

M7 Delivery Update

INFORMATION: Update for Ofgem M7 delivery

Ofgem (Andrew McFaul)

15 mins

7

MHHS Programme – Ofgem M7 Delivery Summary

Overall Status

- M7 is at risk because the Plan currently makes no provision for Ofgem:
 - to assess Final Modification Report (FMR) submissions, including considering Panel recommendations and stakeholders' consultation responses
 - to obtain internal approval and make Ofgem decisions/directions

Month Summary

- Ofgem is working with the Programme to develop a revised M7 Delivery Plan based on moving the M7 milestone to 11 December and revising the milestone title and description to be clearer about what is being delivered by that date (see separate slide for details)
- Programme Participant Information Request (PPIR) cost questions have been developed and the PPIR is planned for 24 May issue date with a 6-week consultation
- Election purdah is unlikely to prevent Ofgem from carrying out MHHS-related functions (but see separate slide for details)

Next Month Deliverables

- Raise Programme CR to amend the M7 milestone timeline, title and description
- Develop/Agree Significant Code Review (SCR) Timelines with Code Bodies

Mstn Ref	Drafting Milestones	Baseline date	Forecast date	Status
6448	Ofgem to keep Ofgem legal informed to ensure prepared for SCR go/no go decision	Mon 24/06/24	Mon 24/06/24	Green
6449	Ofgem Legal to review Code Artefacts	Fri 12/07/24	Fri 12/07/24	Green
6451	Ofgem discuss and agree code mod timetable with code bodies (and MHHSP in relation to the dates for expected decisions)	Fri 09/08/24	Fri 09/08/24	Green
6452	Ofgem to draft open letter and direction to each code body	Fri 16/08/24	Fri 16/08/24	Green
6453	Ofgem to publish open letter	Mon 26/08/24	Mon 26/08/24	Green
6454	Ofgem to publish each Direction to each code body specifying the timetable for each modification	e Wed 28/08/24	Wed 28/08/24	Green
6455	Formally submit (by separate email) Modification Proposal Forms and legal texts to each code body	Wed 28/08/24	Wed 28/08/24	Green
6465	Receive Final Mod Reports	Mon 11/11/24	Mon 11/11/24	Green
4088	SCR powers enabled (M7) (Decision and direction)	Mon 11/11/24	Mon 11/12/24	Amber

Moving M7 and changing the milestone title and description – for discussion

Why does M7 need to be pushed back?

As noted in the previous slide, the current plan assumes Ofgem makes its decisions on the same day that it receives the Final Modification/Change Reports. Ofgem need time to assess those reports and liaise as necessary with the Code Bodies and/or other stakeholders before directing our decision. Ofgem expect that these activities, combined with the usual drafting and approvals processes, will take up to 4 weeks.

Activity	Timeframe
Code bodies submit Final Modification/Change Reports	By 8 November
Ofgem reviews Final Modification/Change Reports	11-25 November
Ofgem drafts decision/direction letters	26 November-10 December
Ofgem internally signs off the decision/direction letters and sends them to the Code Bodies (the M7 activity)	By 11 December
Ofgem publishes the decisions/directions	By 13 December

Why do we want to change the M7 milestone description?

- At present, the M7 milestone title is "SCR powers enabled" and the description says "Ofgem enable their Significant Code Review Powers to facilitate the implementation of all Code documentation at M8". However, the SCR powers have already been enabled – and used (to raise the MHHS implementation arrangements modification proposals in 2021)
- Ofgem propose the title and description of M7 changes "Ofgem decisions on M6 baselined code modification proposals" and a description of "Ofgem makes decisions on the Authority-led SCR code modification proposals baselined by the Programme at M6".
- Comments welcome

What is the plan to understand Participant MHHS costs?

Programme Participant Information Request (PPIR)

Questions

What will be the total Programme implementation costs for MHHS for you as an MHHS Participant? Where possible, please apportion this total cost to the costs that will be incurred by each Code (i.e. BSC, REC & DCUSA) to aid Ofgem's SCR analysis by Code.

What will be the total operational costs from go-live to 2045? Where possible, please apportion this total cost to the costs that will be incurred by each Code (i.e. BSC, REC & DCUSA) where possible to aid Ofgem's SCR analysis by Code.

*The PPIR will be issued to all primary contacts on 24 May for a 6-week consultation closing 5 July **The guidance and submission form will be published on the collaboration base and MHHS website

Could purdah risk M7 Decision Making?

Risk

Ofgem will not be able to raise, and take decisions on, MHHS-related code modifications during the general election 'purdah' period

Cabinet Office General Election Guidance in 2019

- "the general principle governing communication activities during a general election is to do everything possible to avoid competition with parliamentary candidates for the attention of the public"
- "decisions on policy, on which a new government might be expected to want the opportunity to take a different view from the present government, should be postponed [but] essential [and] routine business must be carried on."
- "it is important that non-departmental public bodies (NDPBs) and other public sector bodies avoid becoming involved in party political controversy.
 Decisions on individual matters are for the bodies concerned in consultation with their sponsor department who will wish to consider whether proposed activities could reflect adversely on the work or reputation of the NDPB or public body in question."

Interim DESNZ position

- Ofgem's MHHS work is technical and delivery-focussed and there is cross-party consensus on it, so it is not going to attract public attention
- DESNZ will confirm the position when an election date is announced, and the Cabinet Office publishes the 2024 version of the guidance

Next steps

- Ofgem currently believes the risk that we could not carry out our functions in relation to MHHS code modifications during purdah is very low
- Ofgem will review the 2024 guidance when published, liaise with DESNZ and inform Programme immediately once the position is clear

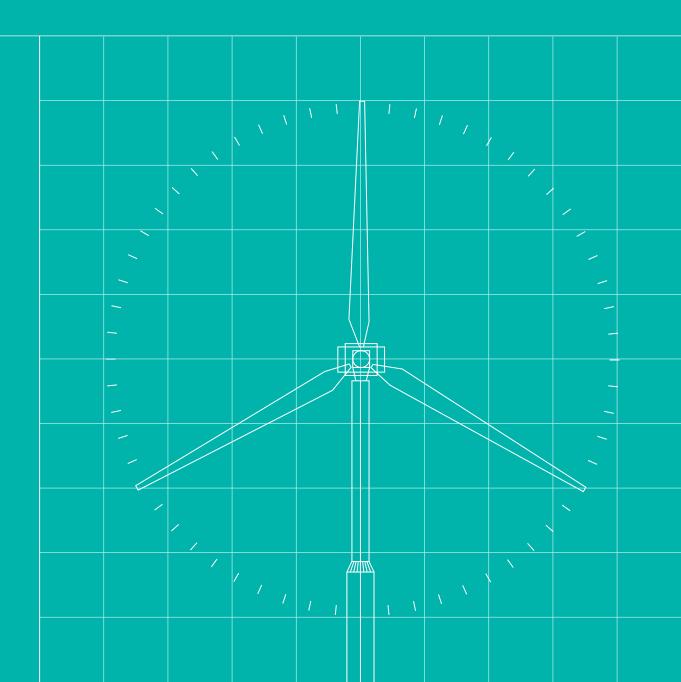

CDWG Update
