Alignment of M10 (go live) delivery date to 22.09.25 for clarification

Issue Statement:

- As per CR055, the M10 milestone date was set to 24/09/25. The Programme have always set M10 to be two days following Systems go live, following the baselined M10/M11 Cutover Plan, to allow time for evidence to be gathered for a Governance approval after the event, to ensure appropriate approval of M10 achievement at PSG.
- Whilst this approach has been communicated in the M10/M11 Cutover Plan and industry forums, there has been some confusion among Programme Participants as to when systems go live.

Description of Change:

- It is proposed that the M10 milestone is moved two days forward from 24/09/25 to 22/09/25 to align with when Central Systems go live at M8 for the avoidance of doubt.
- This will have no impact on the requirements of industry participants but will provide additional clarity as to when the Central Systems go live.
- The Programme will add an additional milestone to 24/09/25 to reflect the completion of the Governance approval.

Target Date of Change and Next Steps:

- Alignment of M10 (go live) delivery date as soon as possible.
- Upon the completion of the industry Impact Assessment, a recommendation will be made by the Change Board to approve or reject the proposed change.
