# Non-SIT Supplier & Agent Participant Qualification Journeys and Qualification Approach & Plan v4.0 POAPs

---

February 2025

MHHS-DEL3501

### Version Control:

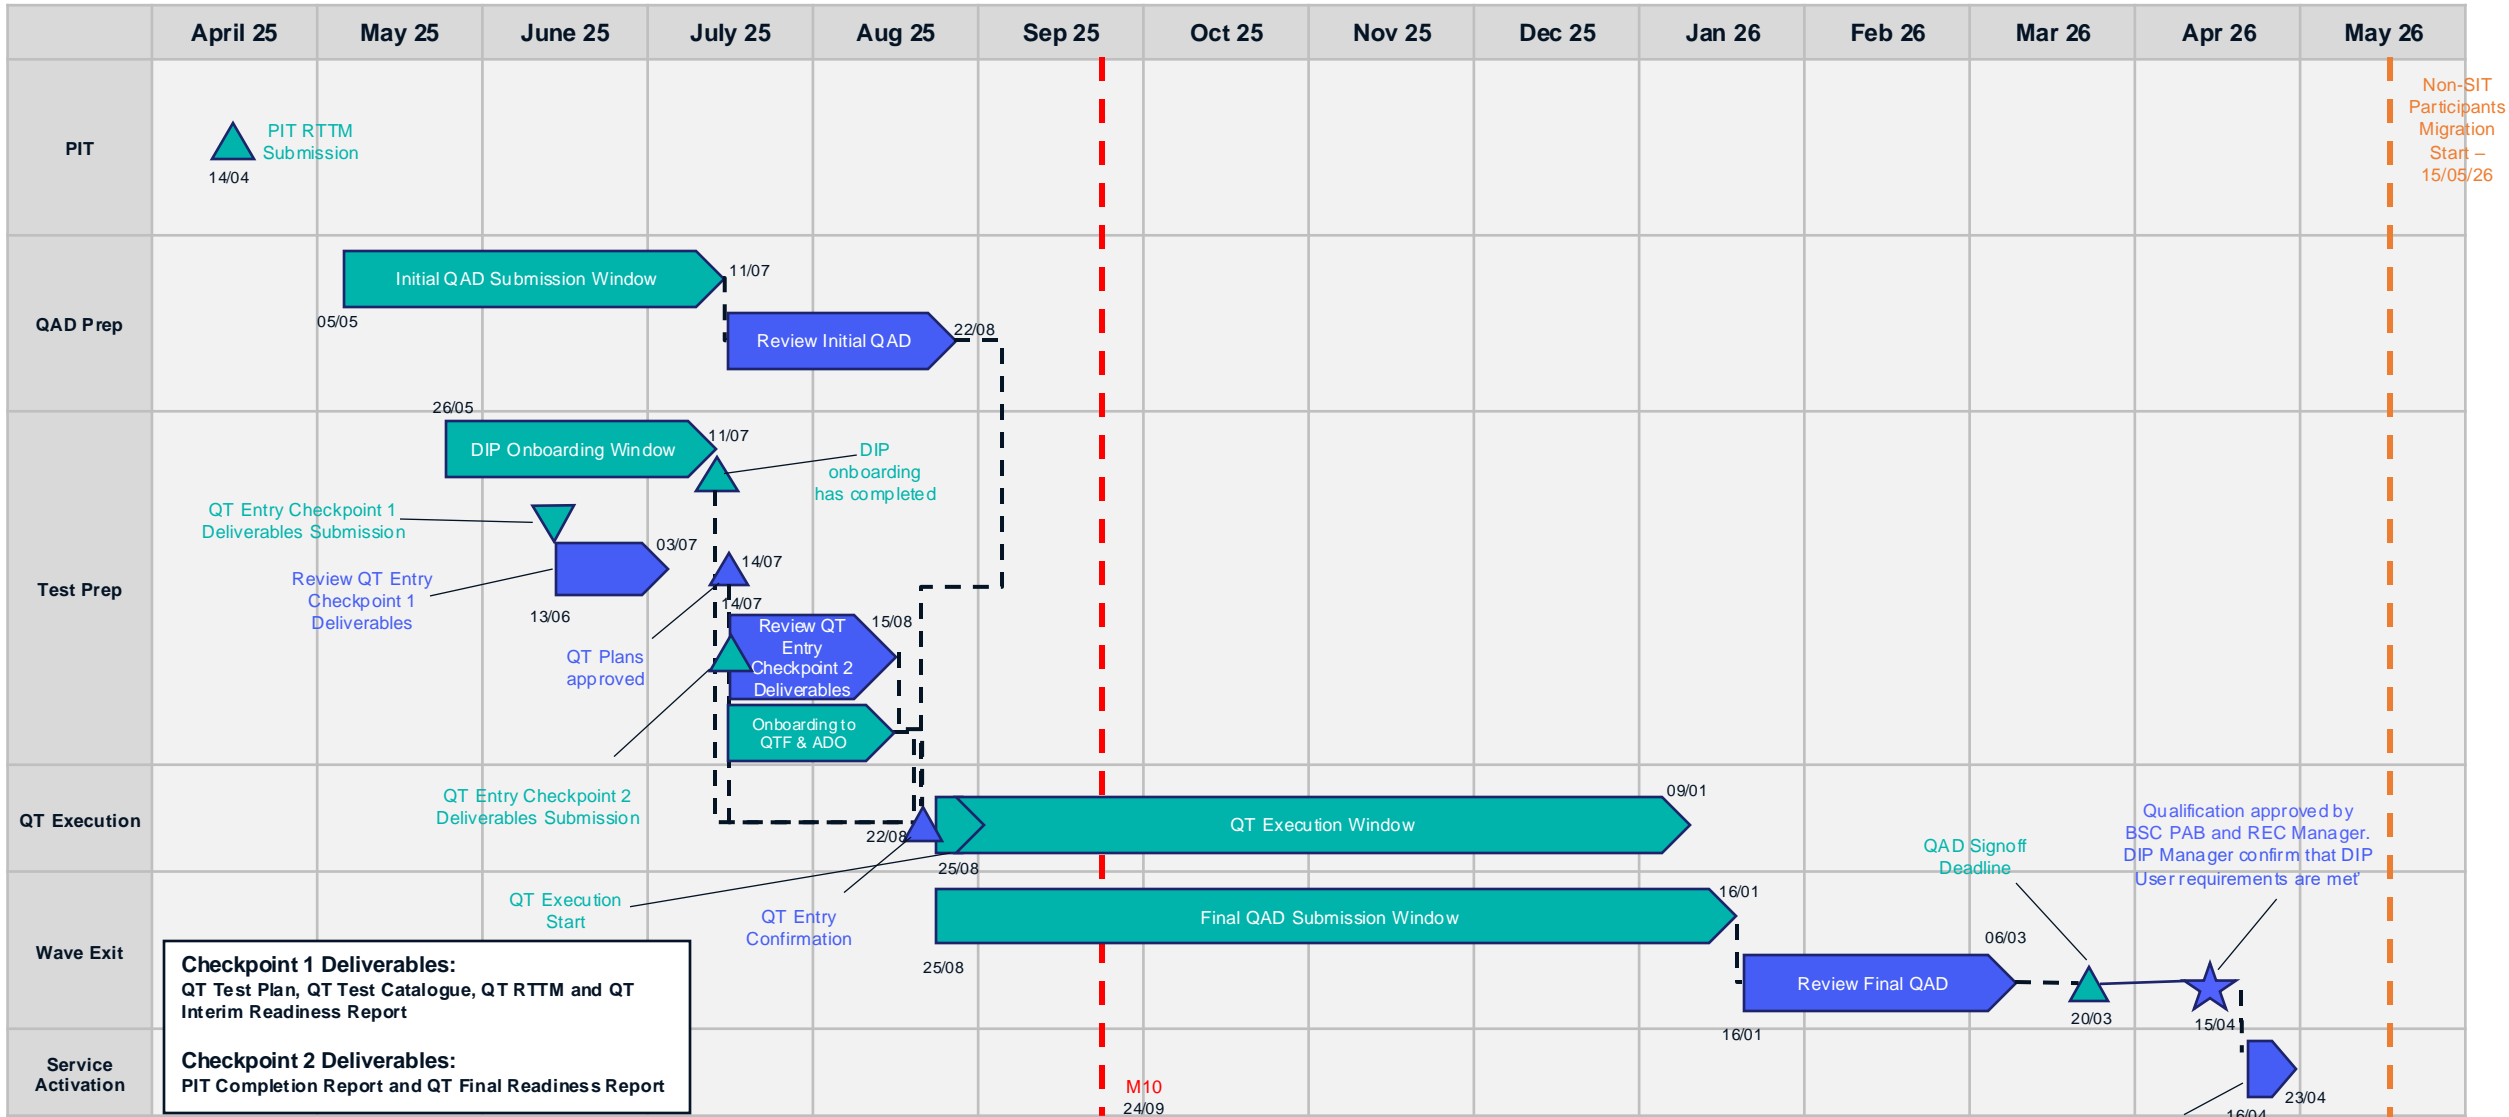

- v1.0 – Qualification Wave Journey, SIT Party, Non-SIT LDSO and Non-SIT Supplier, Agent and new entrant LDSO POAPs.

## Non-SIT Supplier and Agent Participant Qualification Journeys as set out in Programme Plan

- The POAPs that follow show the Non-SIT Supplier and Agent Wave 1, 2, 3 and 4 Qualification Journeys, running from the PIT RTTM Submission through to Service Activation.
- The POAPs are aligned to QA&P v4.0 Annex C and MHHS Programme Plan V6.18.
- QA&P v4.0 Annex C and the MHHS Programme Plan depicts the Qualification Waves plan as a series of ‘windows’ of activity, within which each Participant's activity should be completed.
- This means that Participants are not required to adhere to the Qualification dates in the MHHS Programme Plan precisely and these could, for example, be completed earlier. The expectation is that a Participant completes the activities for which it is responsible within the required window, although it is recognised that in some instances it may take longer. In the [December 2024 QWG Section 4](#) further illustrative examples have been provided for how a Participant may move through a Qualification Wave.
- As part of the [Service Activation](#) process, a Participant's migration plan, including when it will begin migrating, will need to be agreed with the MHHS Programme. When further information on the timeframes for these activities are agreed, we will update the POAP accordingly to reflect this.

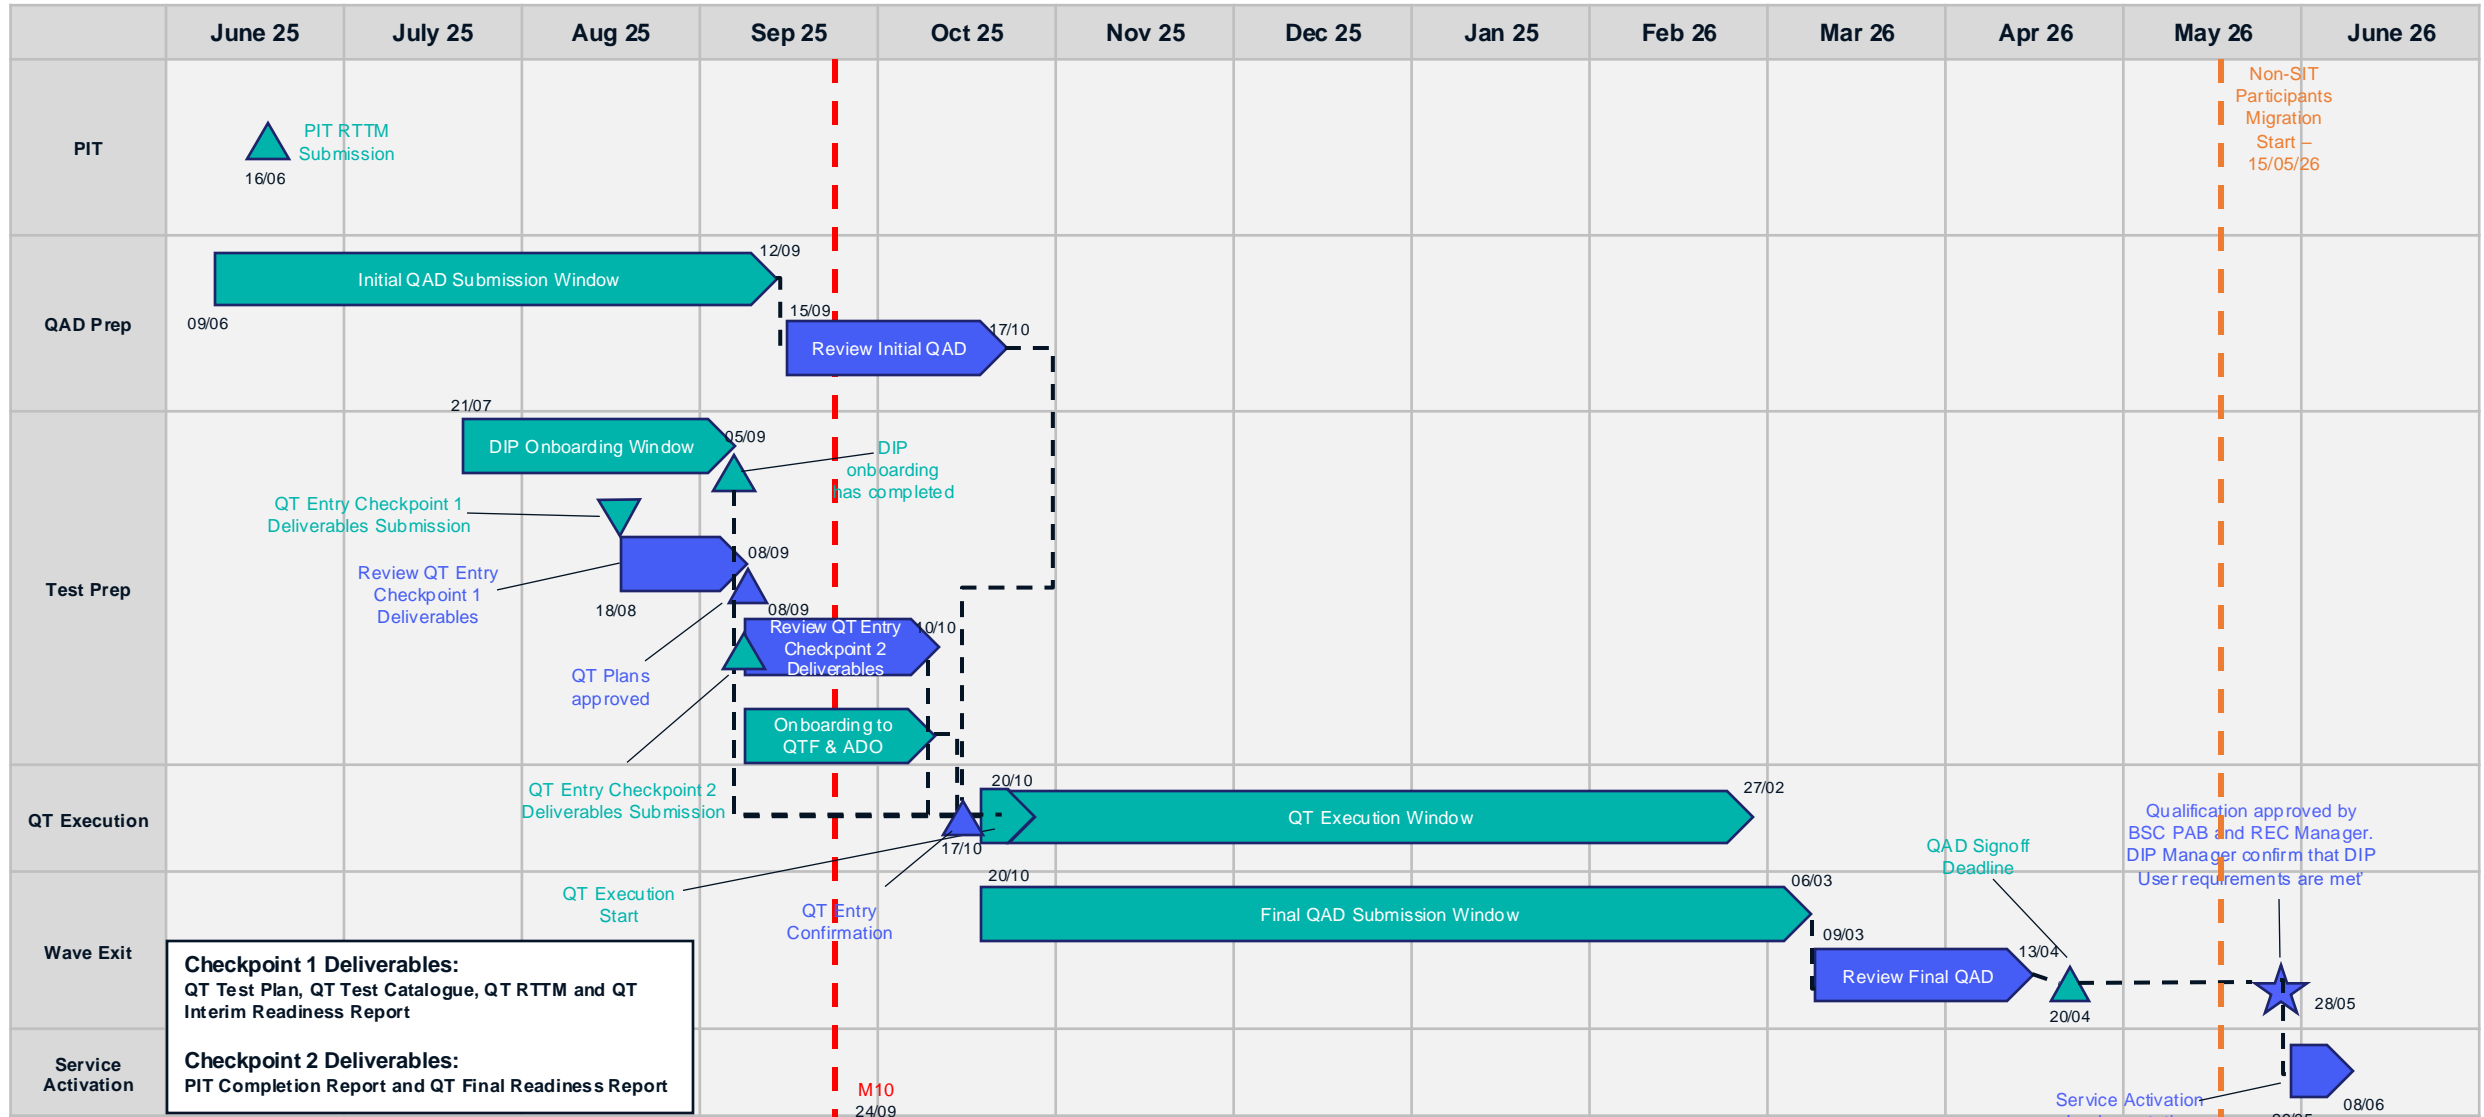

# Participant Qualification Journey – Wave 1 as set out in Programme Plan
