2 INTRODUCTION

These are the release notes for the MHHS Operational Test Scenarios and Test cases for Theme 1, Business Requirements and LDSO (BUUK/SSEN) with MPRS

The release notes provide a complete inventory of files that form the current baseline, as well as candidate files for additions to the baseline which are subject to industry approval.

3 OVERVIEW

This document is used to communicate Scenarios/Test Cases included as part of this release as well as any corrections, additions and extensions to previously issued content to address. This release note includes Scenarios and Test cases that have been uplifted to v0.2 from Industry review

In order to establish the complete inventory of what has been baselined, as well as what is still under review, please consult the previous release notes:

4 26-June Release: Theme 1

This section identifies the changes and additions included in this release

This document communicates changes to previously issued content to address:
1. Issues raised directly by PPs, identified during the Industry consultation window, or in further SI quality checks.

Note: Redlined versions are also included in this upload for all files listed below
