2 INTRODUCTION

These are the release notes for the MHHS SIT Non-Functional Test Scenarios and Test cases for Theme 2 testing.

3 OVERVIEW

This document communicates corrections, additions and extensions to previously issued content to address:

1. Updates to Load Plan by Scenario tab to highlight expected layers of processing required to exercise E2E business processes

4 27-June Release: Additions and Changes

This section identifies the changes and additions included in this release.

Note: Redlined versions are also included in this upload for all files listed below.

Scenarios and Test Cases, an overview of expected processing windows and a summary of each test scenario can be found within MHHS-DEL2590 SIT Non-Functional Test Scenarios Theme2 v0.2:

Tab	Contents	Notes
Load Plan By Scenario	Updated Scenario details showing participants the sequence of role/interface that needs to be executed to complete an end-to-end business process	Removed time and replaced with sequence step IDs to clarify steps, roles and targeted interface for each step of an end-to-end process

Test Case documents:
